**Acknowledgment: The Customer and it's broker/contractors acknowledge that the information provided in this profile as well as all other supporting analytical results are a true and accurate representation of the imported material to be shipped to the Imported Material Site. The customer understands and acknowledges that the failure to properly describe the imported material could result in unexpected incurred expenses (administrative, professional, legal, regulatory penalties, fines or orders). In order to properly dispose of imported materials, and to comply with the applicable legislation, The Customer agrees to indemnify the Imported Material Site for all costs that may arise from the misrepresentation of any imported material. The Customer hereby confirms that all imported material to be delivered to the Imported Material Site meets the Ontario Ministry of Environment Regulation 347 and Regulation 558 criteria as a solid, non-hazardous fill.**

**Material may be rejected at any time.**

**ALL IMPORTED MATERIALS WILL BE SUBJECT TO TIPPING FEES.**
